Auditor's Report

To the Citizens of the Town of Saugus:

Having examined the books and accounts of the several departments of the Town for the fiscal year ending Dec. 31, and finding them correctly kept, and proper vouchers for all payments made, I hereby submit the annual report for your careful perusal and consideration.

The deficiency has been reduced the past year to the amount of \$8,439.42.

By referring to the Treasurer's report it will be seen that the interest account is increasing. Last year I recommended that the sum of \$10,000 be appropriated, but the amount paid was \$11,161.88, and on account of the new school-house loans, unless the temporary loans are kept down it will require a larger amount this year. I therefore recommend that the sum of \$11,000 be appropriated to meet interest charges the ensuing year, \$3,500 for principal of Water Loan, \$2,150 for Cliftdale School-house Loan, and \$350 for Lynnhurst School-house Loan.

Respectfully submitted,

GEORGE PARSONS,

Auditor.

Saugus, Feb. 1, 1900.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of said meeting.
 Given under our hands and Town seal this fifteenth day of May, A. D. eighteen hundred and ninety-nine.

B. F. SANBORN,
 S. A. D. FORRISTALL,
 J. WESTLEY PAUL,

Selectmen of the Town of Saugus.

Meeting called to order at 8.10 P. M.

ARTICLE 1. Choose Mr. Thomas P. Parsons, Moderator, who, after being sworn by the Town Clerk, took charge of the meeting.

ART. 2. There were no reports made by committee.

ART. 3. Voted, That the sum of \$650 be and hereby is appropriated as an additional appropriation for the purpose of building an addition to the Town Farm Barn. Vote: Yes, 20; No. 0.

ART. 4. Voted, To indefinitely postpone any action in regard to the formation of a Volunteer Hose Co. at Lynnhurst.
 Voted, To dissolve the meeting.

A true copy of Record. Attest:

ELMER B. NEWHALL,

Town Clerk.

SPECIAL TOWN MEETING.

ESSEX, SS.

To Chas. A. Blakeley, Constable of the Town of Saugus.

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town affairs, to appear at the Town Hall, on Friday, May the twenty-sixth, A. D. 1899, at eight o'clock, P. M., to hear and act on the following articles, viz.:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on Reports of Committees.

ART. 3. To see if the Town will make an additional appropriation for the purpose of building an addition to the Town Farm Barn, or to see what action the Town will take in the matter.

ART. 4. To see if the Town will instruct the Selectmen to grant permission for the organization of a volunteer Hose Co. in the part of Saugus called Lynnhurst, agreeable to the petition of Chas. N. Wormstead and others, or to see what action the Town will take in the matter.

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-laws at least four days before.

ART. 4. Voted, That the sum of \$300 be and hereby is appropriated for the purpose of putting steam pipes and radiators into the upper story of the old Town Hall Building and connecting the same with the steam plant of the Roby and Grammar School buildings.

ART. 5. Voted, That a committee of three citizens, consisting of Joseph S. Meacom, John H. Parker and Edgar B. Oliver be appointed to consider the advisability of rebuilding, enlarging or repairing the tomb at the cemetery, and obtain estimates of the cost; or recommend any other method as they deem best. Said committee to report at some future Town Meeting.

ART. 6. Voted, To indefinitely postpone any action in regard to amending the By-Laws relating to loitering on the streets.

ART. 7. Voted, That the keeper of the Lockup be paid from the Court fines. Yes, 25; No, 0.

ART. 8. Voted, That the sum of \$450 be and hereby is appropriated for the purpose of placing two (2) fire alarm boxes at North Saugus, the same to be located by the Selectmen. Yes, 35; No, 21.

ART. 9. Voted, Not to confirm the election of Mr. James R. Hughes as a member of the committee to erect a school building in Cliftondale.

Voted, At 9.45 P. M. to dissolve the meeting.

A true copy of Record. Attest:

ELMER B. NEWHALL,

Town Clerk.

Savours, April 5th, 1899.

Meeting called to order at 8 P. M. by Elmer B. Newhall,
Town Clerk.

ARTICLE I. Choose Mr. Thomas P. Parsons, Moderator, who, after being sworn by the Town Clerk, took charge of the meeting.

ART. 2. Exception taken by Mr. Wilbur F. Newhall to the ruling of the Moderator in regard to resinding or reconsidering a vote.

ART. 3. *First.* Voted, That so much of the vote passed at the Town Meeting held on March 21st, 1899, as requires the Treasurer, for the purpose of borrowing the money appropriated for the purpose of land and the erection of and furnishing a school building in Cliftondale, to issue bonds payable in installments from 1905 to 1919, be and the same is hereby resinded. Vote: Yes, 36; No, 3.

Second. Under Art. 3. Voted, That in order to borrow the sum of \$25,000 heretofore appropriated for the purchase of land and the erection and furnishing of a school building in Cliftondale, the Treasurer be and he is hereby authorized to issue the bonds of the Town, payable as follows :

\$5,000	"	"	"	"	"
\$5,000	"	"	"	"	"
\$5,000	"	"	"	"	"
\$5,000	"	"	"	"	"
\$5,000 at the expiration of 6 years from this date.	"	"	"	"	"

The said bonds be in such form as the Treasurer shall approve, and to be signed by him and countersigned by the Selectmen.

Vote: Yes, 37; No, 0.

Third. Voted, That a sinking fund shall be and is hereby established, and there shall be contributed thereto from year to year an amount raised annually by taxation sufficient, with its accumulation, to pay the interest upon said bonds as it becomes due, and to pay the bonds at their maturity. Vote: Yes, 30; No, 0.

"One or more persons standing, lounging, or sitting within the limits of any sidewalks or street, in such a manner as to obstruct the same, shall move on immediately, when ordered by any of the Constables or Police Officers of the Town, under penalty of not less than five dollars (\$5.00), nor more than twenty dollars (\$20.00)."

ART. 7. To see if the Town will vote to pay the Keeper of the Lockup from the Court Fines, or to see what action the Town will take in the matter.

ART. 8. To see if the Town will appropriate a sum of money for the purpose of placing two Fire Alarm Boxes at North Saugus, and purchase the necessary poles and wire to make the proper connection, or to see what action the Town will take in the matter.

ART. 9. To see if the Town will confirm the election of Mr. James R. Hinghes, as a member of the committee chosen at the Annual Town Meeting, to erect a School Building in Clifton-dale, for the purpose of completing the records of said meeting.

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-Laws, at least four days before.

Hereof fail not, and make due return of the Warrant, with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands and Town Seal this twenty-seventh day of March, A. D. eighteen hundred and ninety-nine.

B. F. SANBORN,
S. A. D. FORRISTALL,
J. WESLEY PAUL,

Selectmen of the Town of Saugus.

SPECIAL TOWN MEETING.

ESSEX, ss.

To Charles A. Blakeley, Constable of the Town of Saugus.

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town affairs, to appear at the Town Hall, on Wednesday, April the fifth, A.D. 1899, at 8 o'clock P. M., to hear and act on the following articles, viz.:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on reports of committees.

ART. 3. To see if the Town will vote to provide a Sinking Fund for the School House Loan, authorized at the Town Meeting, 21st of March, 1899, or make the same payable in equal installments, or pass any other votes in relation to the time of payment, or other terms of the said loan.

ART. 4. To see if the Town will make an appropriation for the purpose of putting steam pipes and radiators into the upper room of the old Town Hall Building, and connecting the same with the steam plant of the Roby and Grammar School Buildings.

ART. 5. To see if the Town will appoint a committee of three citizens to consider the advisability of rebuilding and enlarging the Tomb at the Cemetery, and obtain estimates of the cost of doing the same, said committee to report at the next Town Meeting, or to see what action the Town will take in the matter.

ART. 6. To see if the Town will amend Article IV of the Town By-Laws, by adding thereto the following section, or to see what action the Town will take in the matter.

Art. 45. Voted, To indefinitely postpone the numbering of houses.

Art. 46. Voted, That the Selectmen be authorized to rename the streets as provided below, and that the Town By-Laws be amended as follows :

“ The Selectmen may revise the names of existing streets where there are duplicate names, and rename at their discretion such streets as are now duplicated. They shall also have the exclusive right to name such new streets as may from time to time be accepted by the Town.

Art. 48. Voted, That the sum of \$600 be and hereby is appropriated for the purpose of building an addition to the Town Farm Barn, the same to be expended under the direction of the Overseers of the Poor; and that it be let out to the lowest responsible bidder by contract, under sealed bids.

Art. 49. Voted, To indefinitely postpone the subject of fitting up the Public Library for Town offices.

Art. 50. Voted, That the Treasurer be authorized, with the approval of the Selectmen, to make a water loan of \$2,500 for the extension of the water pipes. Vote : Yes. 32 ; No, 0.

Voted, To dissolve the meeting.

A true copy. Attest :

ELMER B. NEWHALL,

Town Clerk.

ART. 35. Voted, That the sum of \$135 be and hereby is appropriated for the purchase of one dozen fire extinguishers, to be used in the Town Hall and other Town buildings, and that the Chairman of the Selectmen and Chief Engineer be authorized to purchase and locate the same.

ART. 36. Voted, To indefinitely postpone the appropriation of money for the expenses of the Fire Department, this having been covered in a previous article.

ART. 37. Voted, To indefinitely postpone the matter of heating the basement of the East Saugus School Building.

ART. 38. Voted, To appropriate the sum of \$300 for repairs and incidental expenses on school buildings, to be expended under the direction of the School Committee.

ART. 41. Voted, To appropriate the sum of \$25,000 for the purchase of land and the erection and furnishing of a six-room wooden school building in Cliftondale, and that the Treasurer be and he is hereby authorized to issue bonds for the sum, payable in installments from 1905-1919, and that this amount shall cover the full cost of the completed building, furnished and ready for full occupancy; and that all contracts shall be let out by sealed bids, and to the lowest responsible bidder. Vote: Yea, 61; Nay, 5.

ART. 42. Voted, That the following gentlemen serve as a Building Committee on the school building at Cliftondale:

Thomas P. Parsons,	Geo. M. Amerige,
Chas. E. Putnam,	J. M. Stokes,
Henry J. Mills,	B. F. Robinson,
B. F. Sanborn,	S. A. D. Forristall,
C. N. Wormstead.	

ART. 43. Voted, To refer to the Selectmen the matter of locating an arc light on Avon Street.

ART. 44. Voted, To indefinitely postpone the matter of providing better accommodations for the Public Library.

in installments from 1904-1919, at a rate of interest not exceeding four per cent., and in total amount not exceeding \$25,000.

Third. That a committee of five be appointed by this meeting with full powers to make contracts, purchase land, and do all other acts necessary to procure a site, build and furnish the building ready for occupancy.

Fourth. That the appropriation of \$300 be made for the purpose of putting steam pipes and radiators into the upper room of the old Town Hall Building and connecting the same with the steam plant of the Roby School Building.

THOMAS P. PARSONS,
CHARLES E. PUTNAM,
HENRY J. MILLS,

JAMES R. HUGHES,
GEORGE M. AMERIGE,

Committee.

ART. 27. Voted, That the sum of \$175 be appropriated to convey the school children from Edison street and other portions of Lymnhurst to the East Saugus School.

ART. 30. Voted, Not to amend the By-Laws in regard to street loitering.

ART. 31. Voted, That the Assessors be and hereby are instructed to abate the tax to be assessed for the year 1899, on a certain Town note held by Mrs. E. Hathaway.

ART. 32. Voted, That no appropriation be made for putting steam pipes into the upper story of the old Town Hall.

ART. 33. Voted, To indefinitely postpone any action under this article, the subject having been covered in a previous article.

ART. 34. Voted, That the sum of three hundred dollars be and hereby is appropriated for the purchase of hose for Lymnhurst, and that the Chief Engineer be appointed a committee of one to purchase the same.

this it was necessary for them to hire Clifton Hall. At the present time Grades 8-9 in the Brick School Building are large, and from present indications it appears that it will be necessary, in order to accommodate the pupils in three grades at the opening of another year, to open another school. There is no room which can be hired in Cliftondale suitable for this purpose. Your Committee, therefore, believes that it would be for the best interest of the Town to commence at once the erecting of a new school building in that section of the Town.

In line with this recommendation we have consulted an architect and have received from him estimates of the probable cost for the erection of such a building as we believe would be an advantage for the Town to build. While at the present time only two rooms are absolutely needed, yet from the rapid growth of this part of the Town, and the experience which we have had from building two small buildings in the past, we feel that it would be best to build a six-room building.

Regarding the accommodations at Saugus Centre, we feel that at the opening of the present school year the school committee found it necessary, owing to the number of pupils in the High School, to move one of the classes from the Roby School Building and to locate it in the upper room of the old Town Hall Building. While this room is not up to the standard of our other school-rooms, and is heated by a stove which, during the past winter, has not been wholly satisfactory, yet we feel by having some radiators and steam pipes placed in the room and connected with the steam plant of the Roby School Building the room can be made to answer the purpose until such time as the Town is in condition to further increase the school accommodations in this Ward.

Your Committee therefore make the following recommendations:

First. To build a six-room wooden building at an estimate cost for land, building and furnishing of \$25,000.

Second. That the Town authorize the Treasurer with the approval of the Selectmen to issue bonds of the Town, payable

ART. 25. Voted, That the sum of \$150 be and hereby is appropriated for putting water pipes into the Hathaway property.

ART. 26. Voted, That the sum of \$750 be and hereby is appropriated to increase the salaries of the teachers who receive less than \$500, to such sums as the School Committee think proper, not exceeding \$50 to each teacher.

Voted to take up Article 28.

ART. 28. Voted, That the sum of \$3,500 be and hereby is appropriated to build a school-house at Lynnhurst, the contract to build the same to be let to the lowest responsible bidder by the Selectmen who shall have charge of said building and that the Treasurer be and hereby is authorized to make a loan not to exceed \$3,500 for building the same as provided in Article 29.

Yea, 91; nay, 32.

TUESDAY, March 21st, 1899.

Meetings called to order by the Moderator at 8.10 P. M.

ART. 29. Voted, To indefinitely postpone action on this article as this was covered in the action under Article 28.

ART. 47. The committee appointed to investigate and report as to the needs of further school accommodations in Cliftondale and Saugus Centre, made the following report which was accepted and the committee discharged.

At the annual Town Meeting held in March, 1898, we were appointed a committee to investigate and report as to the needs of further school accommodations in Cliftondale and Saugus Centre. We have attended to that duty, and now beg to offer the following report:

At the beginning of the present school year the School Committee found it necessary to establish a new school in Cliftondale on account of the crowded conditions of Grades 4-5. To do

ART. 11. Voted, That the sum of \$3,300 be and hereby is appropriated for the expense of the Police Department and Lockup for the ensuing year.

ART. 12. Voted, That the sum of \$150 be and hereby is appropriated for the observance of Memorial Day.

ART. 13. Voted, That the sum of \$800 be and hereby is appropriated for grading avenues and care in the cemetery.

ART. 14. Voted, That the sum of \$4,700 be and hereby is appropriated for street lighting.

ART. 15. Voted, That the sum of \$360 be and hereby is appropriated for insurance of Town buildings.

ART. 16. Voted, That the sum of \$600 be and hereby is appropriated for repairs to public buildings.

ART. 17. Voted, That the sum of \$100 be and hereby is appropriated for the use of the Board of Health for the ensuing year.

ART. 18. Voted, That the sum of \$1,000 be and hereby is appropriated for the salary of Superintendent of Schools.

ART. 19. Voted, That the sum of \$300 be and hereby is appropriated for the Public Library, together with the Dog Tax.

ART. 20. Voted, That the sum of \$50 be and hereby is appropriated for searching the Records.

ART. 21. Voted, That the sum of \$300 be and hereby is appropriated for sidewalks.

ART. 23. Voted, That the Collector of Taxes be paid one and one-half per cent. for collecting the tax of 1899, to be paid from the Selectmen's Incidentals.

ART. 24. Voted, That all taxes shall be collected within one year from Oct. 1st of the year of assessment, and that the Collector shall collect, according to law, as provided in the General Statutes, after that date, and that the tax of 1898 shall be included in this vote.

was accepted.

Timber: Levi G. Hawkes, Herbert O. Pratt, A. M. Stocker.

on all taxes of 1899, paid on or before October 1st, 1899, and that interest at the rate of seven per cent. be charged after No-

November 1st, 1899.

for schools.

for Selectmen's Incidentals.

Overseers of the Poor	\$4,000	.

ART. 44. To see if the Town will provide better accommodation for the Public Library, and make an appropriation therefor, or to see what action the Town will take in the matter.

ART. 45. To see if the Town will appropriate the sum of fifty dollars (\$50.00) for numbering new houses on streets where houses were previously numbered, or to see what action the Town will take in the matter.

ART. 46. To see if the Town will amend Article IV of the Town By-Laws, by adding thereto the following section, or to see what action the Town will take in the matter :

“The Selectmen may revise the names of existing streets, where there are duplicate names, and rename, at their discretion, such streets as are now duplicated. They shall also have the exclusive right to name such new streets as may from time to time be accepted by the Town; or to see what action the Town will take in the matter.

ART. 47. To hear and act on the report of the Committee appointed at the Annual Town Meeting of March, 1898, to investigate and report on the need of further school accommodation in Cliftondale and Saugus Centre, or to see what action the Town will take in the matter.

ART. 48. To see if the Town will instruct the Overseers of the Poor to make an addition to the Town Farm barn, for the accommodation of stock, and make an appropriation therefor; or to see what action the Town will take in the matter.

ART. 49. To see if the Town will instruct the Selectmen to fit up the room now used for a Public Library for Town Officers, and make an appropriation therefor, or to see what action the Town will take in the matter.

ART. 50. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to make a water loan of twenty-five hundred dollars (\$2,500.00) to be used by the Water Commissioners for the extension of waterpipes, or to see what action the Town will take in the matter.

ART. 37. To see if the Town will make an appropriation to heat the basement and sanitarries of the East Saugus School Building, or to see what action the Town will take in the matter.

ART. 38. To see if the Town will make an appropriation of three hundred dollars (\$300.00) for repairs and incidental expenses on School Buildings, to be expended under the direction of the School Committee, or to see what action the Town will take in the matter.

ART. 39. To see if the Town will instruct the Selectmen to petition the Legislature to reimburse the Town of Saugus the sum of one hundred thousand dollars (\$100,000.00) and such additional sums as have been expended by the Town in the reconstruction and maintenance of the so-called Salem Turnpike Corporation, or to see what action the Town will take in the matter.

ART. 40. To see if the Town will instruct its Representative, Town Counsel and Town Auditor to ascertain and report to the Selectmen and the proper legislative committee the amount which has been expended by the Town, under the preceding article, with interest thereon to date, or to see what action the Town will take in the matter.

ART. 41. To see if the Town will make an appropriation for the erection of a new School Building in Cliftondale and authorize the Treasurer to issue Bonds or notes of the Town for the same, or to see what action the Town will take in the matter.

ART. 42. To see if the Town will appoint a Committee to erect a School Building in Cliftondale, with full power to make all contracts, purchase land and do all other acts necessary to complete the building ready for occupancy, or to see what action the Town will take in the matter.

ART. 43. To see if the Town will instruct the Selectmen to locate an arc light on Avon street, or to see what action the Town will take in the matter.

ART. 30. To see if the Town will amend Article IV of the Town By-Laws, by adding thereto the following section, or to see what action the Town will take in the matter.

“One or more persons standing, lounging or sitting within the limits of any sidewalks or street, in such a manner as to obstruct the same, shall move on immediately, when so ordered by any of the constables or police officers of the Town, under penalty of not less than five (\$5.00) nor more than twenty dollars (\$20.00).”

ART. 31. To see if the Town will instruct the Assessors to abate the tax on a certain Town note held by Mrs. E. Hathaway, in payment of the Gravel Pit purchased by the Town; or to see what action the Town will take in the matter.

ART. 32. To see if the Town will make an appropriation to put steam pipes and radiators in the upper story of the Old Town Hall Building, so that it can be heated by steam, or to see what action the Town will take in the matter.

ART. 33. To see if the Town will vote to pay the firemen of the Saugus Fire Department thirty-five (\$35.00) dollars each per year—four companies of ten men each,—and make an appropriation therefor; or to see what action the Town will take in the matter.

ART. 34. To see if the Town will appropriate the sum of three hundred dollars (\$300.00) for the purchase of hose for Lynnhurst, or to see what action the Town will take in the matter.

ART. 35. To see if the Town will appropriate sufficient money for the purchase of one dozen fire extinguishers (3 gallon size), to be placed in Town Hall and other Town buildings, or to see what action the Town will take in the matter.

ART. 36. To see if the Town will appropriate the sum of two thousand dollars (\$2,000.00) for the expenses of the Fire Department for the ensuing year, or to see what action the Town will take in the matter.

ART. 23. To see what compensation the Town will give the Collector for collecting the tax of 1899, or to see what action the Town will take in the matter.

ART. 24. To see if the Town will vote to adopt some rule for collecting taxes, or to see what action the Town will take in the matter.

ART. 25. To see if the Town will appropriate a sum of money for the purpose of laying water pipes to the Hathaway property, or to see what action the Town will take in the matter.

ART. 26. To see if the Town will instruct the School Committee to increase the salaries of those teachers who receive less than five hundred dollars salary, to such sums as they think proper, not exceeding fifty dollars (\$50.00) for each teacher, and make an appropriation therefor; or to see what action the Town will take in the matter.

ART. 27. To see if the Town will appropriate the sum of three hundred fifty dollars (\$350.00) for the conveyance of the school children from Edison street, Lynnhurst, to the East Saugus School-house, the same to be let out to the lowest responsible bidder, or to see what action the Town will take in the matter.

ART. 28. To see if the Town will instruct the Selectmen to purchase land and build a school-house at Lynnhurst, at a cost not to exceed thirty-five hundred (\$3,500.00) dollars, said house to be let out by contract to the lowest responsible bidder, or see what action the Town will take in the matter, agreeable to the petition of C. N. Wormstead and others.

ART. 29. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to make a loan, not exceeding thirty-five hundred dollars (\$3,500.00) for a term not exceeding ten years, to be called the Lynnhurst school-house loan, agreeable to the petition of C. N. Wormstead and others, or to see what action the Town will take in the matter.

Art. 14. To see what action the Town will take in relation to Street Lighting, and make an appropriation therefor.

Art. 15. To see if the Town will make an appropriation to cover the cost of Insurance on Town Buildings.

Art. 16. To see if the Town will make an appropriation for Repairs on Town Buildings and Grounds.

Art. 17. To see if the Town will make an appropriation for the Board of Health, or to see what action the Town will take in the matter.

Art. 18. To see if the Town will make an appropriation for the Superintendent of Schools.

Art. 19. To see if the Town will appropriate the money received from the County of Essex, on account of Dog Tax, for the year 1898, and in addition thereto the sum of three hundred dollars (\$300) for the purpose of purchasing books for the Sausus Free Public Library and for current expenses for the same, to be expended under the direction of the Library Trustees; or to see what action the Town will take in the matter.

Art. 20. To see if the Town will appropriate the sum of fifty dollars (\$50.00) for searching the Records and Plans for the Assessors.

Art. 21. To see if the Town will make an appropriation for sidewalks, or to see what action the Town will take in the matter.

Art. 22. To see if the Town will appoint a committee to consider the advisability of asking of the Post Office Department at Washington that the Town of Sausus may be constituted a Sub Station, or Sub Station of Lynn or Boston Post Office, that said Town of Sausus may obtain the free delivery of their postal matters, agreeable to the petition of C. N. Wormstead and others; or to see what action the Town will take in the matter.

ART 4. To revise the Jury List.

ART. 5. To choose a Committee on Appropriations, as required by the Town By-Laws.

ART. 6. To see what action the Town will take in relation to charging interest or making a discount on taxes assessed in the ensuing year.

ART. 7. To make an appropriation and raise such sums of money as may be necessary to defray Town charges for the ensuing year.

ART. 8. To see what action the Town will take in the matter of fixing the compensation of any or all Town Officers, and make an appropriation for the same.

ART. 9. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to hire money and give notes of the Town for the same for the following purposes :

First. For the purpose of paying notes coming due the present year.

Second. For the purpose of paying notes not yet due.

Third. To hire money temporarily, not exceeding sixty thousand dollars, (\$60,000) for one year, in anticipation of the taxes of the year 1899.

ART. 10. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to hire money of the Sinking Fund Commission, and give notes of the Town for the same, for the purpose of funding the Town debt.

ART. 11. To see if the Town will make an appropriation for Police Service and expenses of Lockup.

ART. 12. To see if the Town will make an appropriation for the purpose of observing Memorial Day.

ART. 13. To see if the Town will make an appropriation for the purpose of Laying Out and Grading Avenues in the Cemetery.

ANNUAL TOWN MEETING.

ESSRX, ss.

To Charles B. Blakeley, Constable of the Town of Saugus.

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus, qualified to vote in Town affairs, to meet at the several voting precincts in the Town, on Monday, March the sixth, A.D. 1899, at six (6) o'clock A.M., then and there to bring in their ballots to the Wardens for the following Town Officers.

 J. WESLEY PAUL,
Appraising Committee.

Selectmen's Report

The Selectmen herewith respectfully present their annual report for the fiscal year ending Dec. 31, 1899.

Highways and Bridges.

A continual and persistent demand for public improvements, often far out of proportion to the increase of material wealth, seems to be the desire of every rapidly increasing and prosperous community. Such is the Town of Saugus. The official duties of members of every department grow more and more perplexing and arduous, and in no one is this more noticeable than in the Department of Highways and Bridges.

The many miles of streets, increasing year by year, require constant attention to meet the exacting demands of the traveling public.

What is now considered a good carriage road will not satisfy the desires of that large class who use the bicycles. What the automobile will require time and experience will tell. If what is said to be the ruling of the courts proves true, this appropriation must be increased, so the Superintendent of Streets can be constantly employed. Few permanent improvements were called for during the year. By the joint action of the towns of Revere and Saugus, the culvert near Franklin Park, on the line of the two towns, was very greatly enlarged and rebuilt in a most substantial manner. The bridge on Elm street, near Pranker's mill, has been raised to grade, replanked and the railing rebuilt. The bridges in East Saugus also have been repaired to a considerable extent.

On Essex street, Cliftondale, after trying for a long time to have the Boston and Maine R. R. Co. grant us permission to drain the surface water over their land, we were forced to lay 500 feet of 10-inch pipe in the street, connecting with catch-basin and drain near the railroad station.

Many thousand loads of gravel have been taken from the Hathaway property, with which the streets of East Saugus, Cliftondale, as well as the Center, have been graded.

We were flattering ourselves on the good condition of our streets, when, by closing of the turnpike or State road, the immense travel of that great thoroughfare was forced on to Lincoln avenue. At the same time nearly 100 tons of crushed rock are being daily hauled to the State highway from the quarry on Denver street. As this is to be continued through the winter and spring, the future condition of those streets is not at all doubtful.

Petitions for the acceptance of several new streets will probably come before the Town at its annual meeting.

The customary appropriation for sidewalks seems an economical expenditure of money. If more of our citizens would avail themselves of the Town offer, we should in a few years have a good system of sidewalks.

Street Lighting.

Our streets are still lighted under the contract made with the Lynn Gas and Electric Light Co. The number of arc lights in operation is 67, at a cost of \$67.50 apiece. There are also five incandescent lights. Again we feel it a duty to call the thoughtful attention of the people of this Town to municipal street lighting. That there will be earnest calls for extending our system and for more lamps on our present line is certain.

Cannot the united wisdom of the Town devise some scheme whereby the cost can be reduced, and at the same time give better results?

Police Department.

It is with pleasure we record our appreciation and commendation of the systematic and arduous services performed by this

department. Having gained the respect of all good citizens by active, vigilant and conscientious work, its duties have been carried on without friction or trouble.

For details we refer you to the report of the Chief of Police.

Fire Department.

What we have said of the Police Department applies equally as well to the Fire Department. The work requires hardy, cool and determined men. We believe we have them. All that is necessary is suitable apparatus and conveniences for work. Our Fire Department will then be second to none of its size.

The Chief Engineer will give the details in his report.

Public Buildings.

Your Selectmen, at the last annual meeting, were impowered to purchase land and build a school-house at Lynnhurst. \$3,500 was appropriated for the purchase; 5,000 feet of land was generously given by Wood, Harmon & Co., the enterprising firm who have opened up Lynnhurst to the public. We also purchased additional land to the amount of 10,000 feet. The building was put under contract to be erected for \$2,788.92. It is nearly completed, and will be finished within the appropriation.

Our public buildings are all in good repair, with perhaps the exception of the Grammar School, Ward 2, which needs new shingles and a coat of paint.

Cemetery.

A small appropriation is necessary to finish regrading the avenues and paths, and also to open a new avenue. It is also hoped that the erection of a new tomb will claim the attention of our citizens. The present apology for a tomb is a reproach on the good name of the Town.

Finances.

The reports of the Auditor and Treasurer give the details of this department. We urge upon our fellow citizens the necessity of devising some way to procure a more prompt payment of taxes.

The interest appropriation is increasing at a most formidable rate. The temporary loans are out of all proportion to the business transacted. It is hoped this, the most important branch of our Town government, will receive the careful attention it merits from every citizen.

Appropriations.

We would recommend the following appropriations :

Highways and Bridges	\$6,000
Selectmen Incidentals	6,500
Insurance	900
Police Department	3,500
Public Buildings	600
Street Lighting	4,800
Cemetery	800

In closing our report for the year 1899, we do it with a certain amount of self-esteem that our efforts to do the business of the Town have been at least partially successful, and we believe in a degree appreciated by our fellow citizens. We have endeavored to carry out your instructions to the best of our ability, and in so doing have succeeded without extra Town meetings or extra appropriations, and we are also able to show a surplus unexpended.

B. F. SANBORN,
J. WESLEY PAUL,
S. A. D. FORRISTALL,
Board of Selectmen.

Report of Overseers of the Poor

The close of another financial year demands from the servants of the Town a complete account of their stewardship, and the Board of Overseers accordingly present the figures and statements of transactions in their department, arranged, it is hoped, with such details of expenditures and receipts as to be found easy of comprehension.

The whole amount of orders drawn by the Overseers Department amounts to \$4,427.79, as follows: For insane, \$1,686.05; partial support of 93 persons, \$1,920.22; Town Farm, \$727.47; repairs on buildings, \$8.25; Town physician, \$25.00; incidentals, \$34.40; insurance, \$26.40.

Owing to a very dry and unfavorable season our crops were much reduced, obliging us to purchase a large quantity of hay to feed the stock. Our barn, which has been very much improved during the past year by the addition of a separate barn for the cattle, making one of the finest barns for the comfort and convenience of cattle, we think, that can be found in this State.

We would call the attention of our citizens to the condition of the Almshouse, which has caused much complaint from the State Board for several years past, and which can only be remedied by a new building, which we would recommend in the immediate future, as it is impossible to alter the present building to make a separation of the sexes, and also to give much needed sanitary improvements.

We would recommend \$4,200.00 to meet the requirements of the Poor Department for the coming year.

HERBERT O. PRATT,
GEORGE FAULKNER,
CHARLES FLORENCE,

Overseers of the Poor.

Report of Sinking Fund Commissioners

SAUGUS, Jan. 1, 1900.

To the Selectmen of Saugus:

The Sinking Fund Commissioners beg leave to submit the following report:

Value of Sinking Fund Jan. 1, 1899,	\$64,000 00	
Interest collected to May 1, 1899	3,840 00	
Appropriation for 1899	1,160 00	
	<hr/>	\$69,000 00
Invested in Town of Saugus notes		\$69,000 00
Value of Sinking Fund Jan. 1, 1900,	\$69,000 00	
Accrued interest not collected to Jan.		
1, 1900	2,760 00	
	<hr/>	\$71,760 00

The appropriation required for the year 1900 is thirteen hundred and sixty dollars (\$1,360).

HERBERT B. NEWHALL,
SAMUEL HAWKES,
HERBERT O. PRATT,

Sinking Fund Commissioners.

Report of Chief of Police

I herewith tender my report for the year of 1899, showing the present condition and strength of the Police Force, and reviewing briefly the duties performed during the year.

Membership.

The force is composed of three regular and sixteen special officers, as follows: Charles O. Thompson, Frank W. Joy and Walter A. Pratt are the regular officers. The specials are R. L. Mansfield, Justin Mansfield, Levi Florence, C. F. Clark, E. P. Burnham, J. A. Rea, D. W. Walker, P. A. Flaherty, E. Berrett, John Brierly, H. F. Fiske, John C. Bannon, S. H. Johnson, F. Feakins, C. S. Pendleton and George Macomber.

Crime.

The whole number of arrests for 1899 was 114, of which 108 were males and 6 females.

Nature of Offence.

Drunk, 47; setting fires, 2; cruelty to animals, 4; over driving horse, 3; assault, 5; assault and battery, 5; embezzlement, 6; bastardy, 2; disturbing peace, 2; profane language, 8; liquor nuisance, 1; larceny, 5; trespass, 3; obstructing an officer, 3; assault on officer, 2; truancy, 2; peddling without a license, 1; surrendered by bondsman, 1; selling horse with glanders, 2; non-support, 3; lewd and lascivious conduct, 3; pool selling, 3; unlicensed dog, 1.

Disposed of as Follows:

Appealed, 2; committed to Salem, 20; committed to State Industrial School, 2; committed to Lyman School, 1; discharged, 16; defaulted, 2; sent to Grand Jury, 1; sent to Superior Court, 5; fined and paid, 10; filed, 19; nol-prossed, 1; continued, 33.

List of Other Work Done.

Number of complaints received and investigated, 180; doors found open and secured, 36; lights for dangerous places, 18; windows found open, 12; fire discovered and alarms pulled, 2; dead body removed, 1; search warrant for liquor, 1; disturbances suppressed, 4; runaway horses stopped, 2; lost children found and restored, 3; lights found burning, 18; dogs shot, 35.

Finance.

The total amount of fines paid during the year was \$291.00.

I would recommend that the sum of \$3,500.00 be appropriated for police service for the year of 1900.

I would also recommend that the sum of \$500.00 be appropriated for the purpose of purchasing a police ambulance for this department.

Conclusion.

In concluding this report I desire to extend my thanks to the honorable Board of Selectmen and George M. Amerige, Trial Justice, for the kindness shown me during the year.

I wish also to thank the officers, regular and special, for the support they have given me.

Respectfully submitted.

CHARLES O. THOMPSON,
Chief of Police.

Report of Board of Health.

The Board of Health respectfully submits its annual report for the year 1899.

The Board was organized as follows: George W. Gale, M. D., Chairman; William F. Belcher, Secretary; Benjamin F. Robinson, Health Officer.

Regular meetings of the Board are held at the Town Hall on the first Monday of each month at 8 o'clock P. M.

We would again urge upon the citizens of the Town the great necessity for the better construction of cesspools and vaults. We have inspected many places on account of poor drainage and in many of them found the cesspools entirely inadequate, either from poor construction or insufficient size.

We have to report the following cases of contagious diseases: Diphtheria, 9; scarlet fever, 8; typhoid fever, 2, of which none were fatal.

Cesspools, Privies and Vaults.

RULE 22. No person shall build, or cause to be built, any privy, vault or cesspool, unless the same is constructed in a thorough and substantial manner, lined with stone, brick, or other suitable material of sufficient thickness and strength to prevent the walls from falling in, and located so that the inside of the same shall be at least three feet distant from the line of any adjoining lot or street. Every cesspool shall be of sufficient size to contain at least eighty cubic feet, measured below two feet

beneath the surface of the ground, and, when not water tight, shall be at least twenty feet from the outside of the cellar wall of any tenement or dwelling, and thirty feet distant from any well, spring, or any other source of water supply used for culinary or domestic purposes. In no case shall the drainage from a privy, vault, cesspool or sink, or foul drainage from any domestic source, be permitted to enter any stream, brook, run, or pond within the limits of the town.

RULE 23. All privies and vaults shall be cleaned at least once a year. Any privy or vault not cleaned within that time shall be declared a nuisance.

Cleanliness of House and Premises.

Public Statutes, Chapter 80, Section 24, provides :

“The Board, when satisfied, upon due examination, that a cellar, room, tenement or building in its town, occupied as a dwelling-house, has become, by reason of the inhabitants' want of cleanliness, or other cause, unfit for such purpose, and a cause of nuisance or sickness to the inhabitants or the public, may issue a notice in writing to such occupants, or any of them, requiring the premises to be put in a proper condition as to cleanliness ; or, if they see fit, requiring the occupants to quit the premises within such time as the Board may deem reasonable. If the persons so notified, or any of them, neglect or refuse to comply with the terms of the notice, the Board may cause the premises to be properly cleansed at the expense of the owners, or may remove the occupants forcibly, and close up the premises, and the same shall not be again occupied as a dwelling-place, without the consent in writing of the Board. If the owner thereafter occupies, or knowingly permits the same to be occupied, without such permission in writing, he shall forfeit not less than ten dollars (\$10.00), nor more than fifty dollars (\$50.00).”

In considering the number of occupants, in accordance with the foregoing section, this Board will consider a sleeping-room to be over-crowded unless there should be at least three hundred (300) cubic feet of air space for each inhabitant occupying the same.

RULE 24. No person shall remove or carry in or through any of the streets, squares, courts, lanes, avenues, places, or alleys within the town, stinking or offensive matter, or any house dirt or house offal, either animal or vegetable, or any grease, bones, or any refuse substance from any of the dwelling-houses or other places in the town, unless such person so removing or carrying the same, and the mode in which the same may be removed or carried, shall be expressly licensed by the Board of Health, upon such terms and conditions as it may deem the health and interest of the town may require.

RULE 25. No person, without a license from the Board of Health, shall throw into or leave in or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water, within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster, clam or lobster shells, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatsoever; nor shall any person throw into or leave in or upon the flats or tide water within the jurisdiction of the town, any dead animal or other foul or offensive matter.

RULE 26. No person shall bury the contents of any vault or cesspool on premises occupied by him or his tenants, or allow any filth or bad-smelling water to be run out upon, or be thrown upon the surface of the ground of such premises.

RULE 27. Kitchen and waste sinks must be safely and securely connected with cesspool or well-covered drain, and must not be permitted to discharge by spouts, or otherwise, upon the side of the house or upon the surface of the ground.

RULE 28. No person shall keep any fowl or animal in any place in the town where the Board of Health may deem such keeping detrimental to the health or comfort of the residents of the neighborhood, or to those who may pass thereby; and said Board shall have the power to remove or cause to be removed therefrom any such fowl or animal so kept.

RULE 29. No swine shall be kept within the limits of the town, without a license first obtained therefor from the Board of Health, and then only in such place and manner as it shall direct.

RULE 30. Owners and occupants of livery and other stables within the town shall not wash or clean their carriages or horses, or cause them to be washed or cleaned in the streets or public ways. They shall keep their stables and yards clean, and not allow large quantities of manure to accumulate in or near the same at any one time between the first day of May and the first day of November, and no manure shall be allowed to accumulate or remain uncovered outside of a stable building.

We would respectfully ask that an appropriation be made for the collection of ashes, swill and garbage at least once a week in each section of the Town. Citizens, please give this your serious consideration and see to it that we have an appropriation at our next Town Meeting.

GEORGE W. GALE, M.D., *Chairman.*

WILLIAM F. BELCHER, *Secretary.*

BENJ. F. ROBINSON, *Health Officer.*

REPORT OF

Engineers of Fire Department

In accordance with the requirements governing the Fire Department, it becomes my duty, as Chief Engineer, to present the annual report of the Fire Department of the Town of Saugus for the year ending Dec. 31st, 1899.

The report will be found to contain statements in detail, embracing the amount of expenditures, a record of all fires and alarms which have occurred during the year, and the cause thereof, with the names of the owners and occupants, the loss and insurance, as nearly as could be ascertained, also an inventory of all property of the department, in charge of the several companies, and such other information as is thought proper for your consideration.

Recommendations.

We would recommend that the Town equip the several houses of the department with horses, thereby increasing the efficiency of the department at least fifty per cent.; the same, when not needed for fire service, to be used upon the highways.

Additional fire alarm boxes are seriously needed to properly cover exposed sections, namely, one at Lynnhurst, one at the corner of Broadway and Felton Streets, Cliftondale, also one on Western Avenue at or near the residence of Alex. Munro, Cliftondale.

We would respectfully recommend that the sum of \$1,800 be appropriated for the expense of the Fire Department for the ensuing year.

We wish to thank the officers and members of the department for the very prompt and efficient manner in which they have responded to all calls in the past year; also to Mr. James F. Pratt for his efficient service as electrician for the past year.

Respectfully submitted,

HENRY F. FISKE,

Chief Engineer.

Board of Engineers:

H. F. FISKE, *Chief.*

Report of Superintendent of Streets

In performance of my duty as Superintendent of Streets I submit the following report :

This year we have been highly favored as regards heavy rains, so that most of our streets are in fair condition. Walnut street, the coming year, should be one of the first attended to. There has been but little done along the Birch Brook Pond for several years, owing to the fact that it was thought the Lynn Water Company would raise the dam and overflow the road, but now they assure us that is something they will not do at present, if ever. Lincoln avenue is now having a very heavy traffic, owing to Salem Turnpike being closed for repairs, which will necessitate quite an expense in the spring to make it as passable as it was before the travel was turned this way. The Highway Department is very much in need of a watering cart, as it is impossible to do good work with the road roller without the aid of water, and we are obliged to pay three dollars per week for the use of a cart. I think it would be a matter of economy to purchase one this coming season and also build a shed to keep it in and all other tools belonging to the Highway Department. It has been suggested that it would be well to make out a list of the personal property now in possession of the Highway Department.

One road roller . . .	\$175
One road machine . . .	50
Nine snow plows . . .	150
Small tools . . .	75
	<hr/>
	\$450 00

Respectfully submitted,

JOHN L. EDMANDS,

Supt. of Streets.

Assessors' Report

The Assessors herewith submit to the citizens of Saugus their report for the year ending Dec. 31, 1899 :

Table of Aggregates of Polls, Property and Taxes Assessed May 1, 1899.

Number of polls assessed . . .	1,396	a gain of	51
Number of polls exempt . . .	75	a dec. of	5
Number of polls registered . . .	1,471	a gain of	46
Number of persons paying poll tax only	669	a dec. of	39
Number of persons paying property tax	1,955	a gain of	279
Total number of persons assessed . . .	2,624	a gain of	238
Number of persons liable to do military duty	848	a loss of	32

On polls	2,792 00	
	<hr/>	\$74,156 16

Total tax for State, County and Town purposes, committed to Lewis J. Austin, collector, \$74,156.16.

Tax on 419 1-2 acres of land taken from Saugus by Lynn, in connection with water supply, at an average value of \$43.50 per acre, based upon a tax rate of \$20.00 per \$1,000, is \$391.50.

The assessors recommend an appropriation of \$650.00 to meet the estimated expenses of their department for the year 1900.

Also the sum of \$50.00 for searching records and for plans for use of assessors.

The undersigned take this method to inform the proper authorities that a vacancy exists in the Board of Assessors, caused by the death of Nathan K. Cross, whose term of office, for which he was elected, expires March, 1901.

BENJAMIN F. CALLEY,
JOHN H. PARKER,

Assessors of Saugus.

Report of Cattle and Milk Inspector

I have taken since January 1, 1899, 411 samples of milk, none of which, in my opinion, had been tampered with, and few that were not up to standard.

I have quarantined two horses affected with the disease known as farcy, and made a post-mortem examination of one, having both animals disposed of by rendering.

I have found but one case of tuberculosis at the slaughter house and that was disposed of by rendering.

This fall I inspected 814 cattle and 176 swine and 32 sheep, making a total of 1,022. All were in good condition.

Respectfully submitted,

A. W. SAWYER,

Inspector.

Saugus, January 1, 1900.

ELMER B. NEWHALL,

Town Clerk.

Free Public Library.

Trustees' Report.

It seems as if with every year that passes that our citizens show greater interest in our library and enjoy its privileges more and more. Every year more books are distributed and your trustees have tried by most carefully selecting the books, which are purchased from time to time, to please the reading tastes of all.

As in past years, the free delivery of books continuous to all parts of our town, and while this is quite an expense, it places the privileges of the library within the reach of all, and certainly no one can have any excuse for not obtaining books if they wish to do so.

One of the most pleasing features connected with our work has been the Art Exhibitions, which have been held from time to time; and it is very gratifying to note the interest which these art displays have created; and certainly they have been most instructive both to young and old, and must have been appreciated by all.

The increase in the number of books loaned the past year has been most marked; and although the library is now open for the distribution of books more hours than ever before, it will soon be necessary to still further increase the number of hours that the library is open on Wednesdays and Saturdays.

Your trustees plainly see that had the library more money for the purchasing of new books, that the number of books loaned and used by the citizens would greatly increase; as at present we can truly say that the library is running at its fullest capacity with its present means in hand;—our work could be greatly increased had we more money.

We are dreadfully cramped in our accommodations, and we do hope that the day is not far distant when in some way space enough will be allotted to the library to allow not only more much-needed space for the books themselves, but also for a reading-room which, we feel sure, will be greatly appreciated. In this connection, your trustees cannot but recognize the efforts of our librarian, in making the best of our accommodation in every way; and in arranging the work of the library in such a manner, that we feel sure, that the public have been accommodated as well as it is possible to do so.

We would thank our United States Senator, Congressman and State Representative for Government and State publications. As in years past, the Lynn Item has been most kind in printing the lists of new books. From Mr. George Faulkner we received the "Shoe and Leather Trade;" Mrs. H. B. Newhall very kindly gave us "Harper's Book of Facts;" from the ladies of the Riverside Club we have received the "Century Dictionary and Encyclopædia," a most valuable work, which we have for a long time greatly needed, but were deterred from obtaining it on account of its expense. This is a most substantial addition to the library. The Riverside Club has also presented us with other publications.

During the year magazines have been received from Mrs. F. C. Cheever, Mrs. Charles Davis, Miss Fannie Hoyt, Miss Carrie Armitage and Miss Emma E. Newhall.

Your trustees will endeavor to conduct the library during the coming year in the very best way that they know how, and expend whatever moneys the Town may see fit to give us to the best possible advantage; but having very carefully considered the needs of the library we would make the following recommendation:

We herewith recommend that the sum of five hundred dollars (\$500) and the dog tax be appropriated for the benefit of the Saugus Free Public Library for the coming year.

B. F. CALLEY, A. B. COATES, MARION V. PUTNAM, LEVI G. HAWKES, JAMES R. HUGHES, M. B. FAXON,	}	<i>Trustees of the Saugus Free Public Library.</i>

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
AND
Superintendent of Schools
OF THE
TOWN OF SAUGUS

FOR THE YEAR ENDING DECEMBER 31, 1899

LYNN, MASS:
WHITTEN & CASS, PRINTERS.
1900.

SCHOOL COMMITTEE.

THOMAS P. PARSONS, <i>Chairman</i>	.	Term expires 1900
GEORGE M. AMERIGE	.	Term expires 1901
HENRY J. MILLS, <i>Secretary</i>	.	Term expires 1902

The Board meets in its rooms in the Town Hall, the first Monday of each month at 7.30 P.M.

SUPERINTENDENT OF SCHOOLS.

CHARLES E. STEVENS.

The Superintendent may be found at his office, in the Town Hall building, on Mondays and Thursdays, from 8.30 to 9 A.M., and Thursdays, from 4 to 4.30 P.M.

CALENDAR, 1900.

Winter term (12 weeks), January 2—March 23.

Spring term (12 weeks), April 2—June 22.

Fall term (15 weeks), September 10—December 21.

Recess, Thursday and Friday of Thanksgiving week.

Winter term opens Tuesday, January 2, 1901.

The spring term of the high school will close one week later than is indicated above.

FINANCIAL STATEMENT.

Report of School Committee

To the Citizens of the Town:

The School Committee respectfully submit their report for the year 1899.

Each year, with its additional number of teachers, pupils and schools, must necessarily bring increased expenditures. We are not then surprised that this year has required a larger outlay of money to carry on the schools than has been required any previous year. The salaries of all teachers below the High School grade were raised, in accordance with the vote of the Town at our March meeting, and this contributed, in a measure, to make the yearly outlay larger.

Few changes were made in the corps of teachers this year. Whether the increase in salaries had any bearing on this point cannot be definitely stated.

The schools in Cliftdale are in a very crowded condition, and some of them have labored under great disadvantage on this account. The completion of the new six-room building on Central street, which is now in course of construction, will, however, give sufficient additional room for some time. This building will not be ready for occupancy until the beginning of the fall term in September.

Steam heat has been introduced into the school-room in the old Town Hall building at Saugus Centre, a new floor laid and the roof shingled. One of the coils in the steam plant in the Grammar School building at the Centre gave out, and a close inspection led to the conclusion that the whole coil must be taken down and the joints newly packed, in order to have the work satisfactory. This work caused quite an expense.

Owing to the close relation which the Superintendent holds with the schools, he is much better qualified to speak as to their progress and standing. We append his more extended report, trusting that it may receive a careful reading.

The reports of the Principal of the High School, the Teacher of Music and the Teacher of Drawing are included with the Superintendent's report.

We estimate the expenses of the coming fiscal year as follows:

Teachers	\$14,000
Janitors	1,800
Supplies	1,700
Fuel	1,700
Incidentals	400
Rent	150
						<hr/>
						\$19,750

THOMAS P. PARSONS,
HENRY J. MILLS,
GEORGE M. AMERIGE,
School Committee.

Report of the Superintendent

To the School Committee:

GENTLEMEN,—Allow me to present my sixth annual report upon the condition of the schools of Saugus.

The year has not been one of radical changes or of unusual events, but rather of quiet, faithful and successful work. The teachers have been greatly encouraged by a substantial increase in salaries; the high school sent forth in June a larger graduating class than ever before; five teachers have resigned, Miss Lang and Miss Emery of the high school, Miss Chubbuck at Saugus, Miss Davis at Cliftdale and Miss Leavitt at East Saugus, and five others, Miss Sawyer, Miss Kelley, Miss Bryant, Miss Bryer and Miss Parker have succeeded them; hoping for improvement, the Ward system of reading has been introduced for use in primary grades; the courses of study in reading, history and nature study have received attention; a successful school exhibit was held in June; two new school-houses, one at Cliftdale and one at Lynnhurst are in process of erection. Thus is briefly stated a few events of the year 1899.

To comply with the request of the State authorities, the statistical table covers the year ending in June instead of December as previously. The figures for the fall term are inserted in the summary.

For the sake of comparison, the average membership of the schools for four years, including a warm and a cold month, and arranged by wards, is here inserted. The rapid growth in school population, which for several years was marked, has not been repeated this year. No additional school has been opened this year, but the large size of the Cliftdale schools will make it necessary probably to deny admission to another entering class until another school can be opened.

Average Membership.

	High School	Saugus Centre	Clifton- dale	East Saugus	All Schools
1896					
January	53	240	315	120	772
September	78	243	364	149	868

January	95	268	385	181	979
September	86	267	425	164	992

Reading.

The method of teaching reading which has been used in our primary schools cannot be designated by any one name, as an effort has been made to use the better parts of several methods. Were you to judge of the results wholly by the reading in these lower grades you would form a favorable opinion. But the reading in the upper grammar grades has not been the most satisfactory. Complaint has been made these pupils do not have the power of independently mastering the pronunciation of new words, and that there is an evident lack of ease and fluency in their reading. Some consideration of the subject has led to the belief that improvement would follow the use of a more definite system of phonics.

Accordingly, we have begun the use in our lower grades of the Ward System of reading, which involves a larger and more systematic use of phonic drill than we had formerly attempted. Excellent results have been obtained in Malden, Everett, and other cities and towns by following this system, and we anticipate a similar experience.

In all grades we are slowly increasing the amount of reading matter. Soon all schools will have enough material for the full year and no exchange of books among the different schools will be attempted. This plan has been found to be neither practical nor economical. With this increase in amount of reading matter we are expecting increased skill in the power to read.

It cannot be said that we attempt as difficult reading as may be found in some places, but we believe it is better to read much of easier reading rather than less of more difficult matter.

Doubtless the quality of the reading matter offered has much to do with the progress of the pupils. The more interesting the material the greater the pupils' desire to read. And this very desire is of great assistance to the pupil in becoming a skilful reader. In every choice of reading books we seek for something valuable, interesting and adapted to the pupils for whom it is intended.

Thus, with increasing amount of reading material, of better quality, with improved methods of teaching, and by, we believe, increased skill on the part of the teachers, we hope for better results in this direction.

Report Cards.

For several years report cards have been regularly sent to parents. In the two lower grades the cards are sent once a month and report only attendance and punctuality—a white card for those having perfect attendance and a blue one for all others.

In the other grades the cards are larger, and report attendance, punctuality and record of work in each school study. The record of work is reported by use of the letters A, B, C and D, taking into consideration the attainments of the pupils in each study, as shown by his oral and written work.

Many conscientious teachers and interested parents have been greatly perplexed and annoyed by this marking system. The reason is not difficult to discover. Bright, quick boys and girls are able to secure the best mark easily, while the slower but more industrious pupils are never able to obtain the desired "A." If the slower pupil has done his best, what more can he do? Is

there anything more worthy, more meritorious than this? What shall we say of the moral effect of distinctions which disregard assiduous effort?

The difficulty with the present plan seems to be that marks are almost wholly based upon *attainments* rather than *application*. This appears to be an arrangement that works to the disadvantage of all classes, the quick as well as the slow. The quick should receive no praise unless worthy, and the slow should receive credit for honest effort, even though his attainments are slight. The bright scholar should have no occasion to think he is in any sense superior to the slow one.

Some modification of our present plan seems best. The report cards are an important factor in determining promotion, yet they are not the only consideration. Age, application, attendance, health, ability and parents' wishes are also factors. Last June all the teachers reported for each of their pupils on these points above enumerated, and all doubtful cases were considered by the Superintendent and teachers in consultation. The aim is to place each scholar in that class where he will receive the greatest benefit.

And if parents would confer often with the teachers, so that pupils could be studied from the standpoint of the home as well as the school, it would be much easier in doubtful cases to determine the wise course to pursue. There would be no excuse for sending home report cards marked on the basis of attainment, for this feature of school work could be considered by parents and teachers in private, and all cards would indicate application or lack of it.

Drawing.

The earnest effort and genuine success of both supervisor and regular teachers in the work in drawing calls for commendation. Those who examined the school exhibit last June, and also of the year previous, often remarked about the improvement so readily observed. A part of the exhibit of this year was later a part of the State exhibit in Boston, and it is expected that a part of these papers will appear again in the Paris Exposition.

The report of Miss Melzard follows :

ATLANTIC, MASS., Jan. 6, 1900.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—Art instruction in our schools is no longer questioned, but the thought which claims most of our attention is how to teach art, what methods and plans will bring about the broadest development of the child. The general plan, with some re-arrangements, is similar to that of last year, the study of nature, of objects, of works of art as to their structure, enrichment and appearance. All these subjects must be included in a complete course of study.

The plan under enrichment includes color drawing from nature, and decorative design, where the natural forms are treated in a decorative way. We have taken more time for design this year, have studied more thoroughly the principles of pure design, rhythm, symmetry and harmony. By illustrations and experiments, the children have acquired a good understanding of these principles and we look for a much better understanding of the subject and better results than formerly, when we take up the subject in the spring.

In the appearance work the objects are first drawn singly, then in groups where the principles of good composition are studied carefully. The study of pictures has helped to awaken an appreciation of the works of art, the children have become able to judge a picture, to see whether the artist has successfully told his thought or not. There are very few good pictures upon the walls of our school rooms; any gifts would be much appreciated.

The value and importance of constructive design is appreciated, when we realize how many things are dependent upon it, in fact everything which we use. All these things have to be designed, and good designs depend upon principles.

The real value of art education is not in the results shown, but in the thought awakened. Some children have been surprised to find what they could do, they have simply discovered a new language in which to express themselves.

The work in the high school is carried on as formerly, I give three lessons a month to three classes.

Whatever has been attained is largely due to the teachers, who have shown great interest in the work.

Respectfully submitted,

SADIE R. MELZARD.

Music.

The good work in musical instruction is to be commended. Supervisor and teachers are active, interested and working in harmony.

The report of Miss Page follows :

SAUGUS, MASS., Jan. 13, 1900.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—As another year closes and we come to a summing up of work accomplished a degree of satisfaction is felt.

Music, in one form or another, meets us at every turn in life; it is the property of all and has come to be a necessity. It is of service to a greater number of people than any other art, for in joy or grief it becomes a companion; it spurs to victory and comforts in sorrow. Physically it is a tonic; it rests the body.

We are told that the perfection of physical life depends upon its rhythm; that brain activity depends upon the reign of rhythm among its cells. So in music the daily period, week after week and year after year, of keeping time with its regularly recurring accent soothes the restless child, gives content of mind and health of body and disposition.

Let music be taught with intelligence and a realizing sense that it is an inherent part of the great harmony of nature and life, and the boys and girls of our public schools, as they grow to be men and women, will gratefully echo the words of Martin Luther: "Music is a fair and glorious gift of God. I would not for the world forego my humble share of it."

Now that our first five grades are separate the work in these rooms is much more comprehensive.

During the spring term the pupils of the Fourth Grade were advanced to the Second Reader. This year we will be able to accomplish the same work and hope for the necessary books.

During the year new books have been supplied to our highest grammar grades, also the high school, and the added interest is most gratifying. On Memorial Day a semi-chorus from the high school kindly furnished a part of the musical program.

Our program for graduation was more varied than usual, consisting of a solo, mixed quartette, ladies' trio and a chorus from the school. But the effectiveness of the latter was greatly marred by position of chorus, the stage being too small to accommodate so many singers.

I desire to express thanks to teachers, School Board and Superintendent, for help and encouragement during the year.

Respectfully yours,

HELEN M. PAGE.

High School.

By the law of the State, as revised, the high school must meet certain requirements, viz.: (1) It must be adequately equipped. (2) It must be taught by a principal and such assistants as may be needed of competent ability and good morals. (3) It must give instruction in such statutory subjects as it may be deemed expedient to teach, and in such additional subjects as may be required for general culture or admission to normal schools, technical schools and colleges. (4) It must maintain one or more courses at least four years in length. (5) It must be kept forty weeks, exclusive of vacation. (Sixty-third report, State Board of Education.)

It is with considerable satisfaction that we can now report an excellent high school in Saugus, fully meeting the requirements of the public statute.

And it is gratifying to know our school is meeting with so large a degree of popular approval. There are many erroneous ideas in regard to the percentage of public school pupils entering the high school, some asserting that it is not over ten per cent.

It is a pleasure to say that thirty-five per cent. would be more nearly correct. There are to-day about one hundred pupils in the sixth grade in all the schools of the town. If, in the course of time, thirty-five of these should enter the high school it is evident that thirty-five per cent. of these enjoy high school privileges. There are about one hundred pupils in each grade of the first five or six, the falling off not being much evident until about the seventh year. Our entering classes to the high school number from thirty to forty-five. Twenty-five per cent. of the children of the State avail themselves of high school privileges, which is at least ten per cent. less than enjoy the same privilege in Saugus.

The report of Principal Adams is here inserted :

SAUGUS, MASS., Jan. 8, 1900.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—I hereby submit my fourth annual report of the high school. The average attendance has been about the same as last year, although the present membership is slightly below that of last year. This is due to three reasons: First, on account of many pupils being sick during the latter part of the fall term; second, because the efforts being made to raise the standard of scholarship in the school have caused a few to leave school rather than repeat the work another year. We believe, however, that it is for the benefit of the greatest number of pupils that they be required to attain a fair standing in their class before promoting them. Another reason for a decrease in membership is due to the unusually large graduating class (thirty-one) of last year.

We have enrolled at the present time ninety pupils. The present membership is eighty-four. Of these, eleven are taking the four years' classical course with Greek; thirty-one are taking the four years' classical course with Latin and French, and the remaining forty-two are taking the three years' English course.

There has been a marked decrease in the number of pupils taking the three years' course, and a corresponding increase of

those taking the four years' course. It is my opinion that no course of study, unless it be a business course, should be less than four years.

The college preparatory course has to be changed from year to year, in order to meet the constantly increasing demands of the normal school, college and university requirements for admission. Their requirements are so much greater than ever before, that unless more work can be done in the grades below the high school, it will soon be impossible to properly prepare the ordinary student for college in the four years usually given to this work. Already, many private and public school officials are arranging to relieve the great strain under which the student is now placed by having five years instead of four given to college preparatory work. It *may be possible now* to prepare for the ordinary college in four years, but is it wise to overtax our pupils in attempting to prepare them for university work in the same length of time?

If a good business course, with a competent teacher to take charge of it, should be introduced into our high school, there is no doubt but that a large number of students would avail themselves of the opportunity of securing a good business education. Very many of our pupils after graduation take the course at a business college. They might just as well have received their instruction while taking the four years' English course in the high school. This would save the parents much expense, and enable the pupils to remain in our own schools a longer time.

We plan to make our course in English the best possible. This is as it should be since the majority of our students take this course directly and all others take parts of it. It is so arranged now that students can take either Rhetoric or English Literature for the entire four years. Last year a list of about two hundred books was arranged from which each pupil is required to select and read two each term. This plan has worked well. The pupils are thus taught to read good literature.

We are pleased to note the interest shown by parents and citizens in our high school, but we wish that more of them would visit us and see for themselves what kind of work we are doing.

This is the only way of absolutely knowing just what progress we are making. The Superintendent, School Committee and teachers have assisted in every way possible to make the high school a success.

Financial Report.

Report of money received and expended for the Saugus high school in 1899:

RECEIPTS.

	\$82 14

Respectfully submitted,

N. E. ADAMS.

At my suggestion, Principal Adams has prepared the following historical sketch, which I am sure will be read with interest:

Saugus High School.

It may be of interest to the citizens of Saugus to know something of the history of our high school.

The records show that the question of having a high school was agitated some years before the Town finally decided to start such a school. In the school report of 1873 is found this account of its formation: "The idea of a high school for the Town of

Saugus is not a sudden thought, but one growing out of needs long felt to exist. Away back in the dark ages our predecessors, by the dim light of their surroundings, saw and foretold the advantages of such an institution; in 1862 they say: 'We urge the importance of a high school from the fact that in other towns where they have been established they have had a tendency to increase their population, their wealth, and respectability.'

Let it become a well-known fact that there is a good high school permanently established in Saugus and families will not be so likely to pass us to find a location. We believe a school of that character might be established on a sound and just principle, which would bring some of the choicest blessings upon the sons and daughters of the Town, and through them upon the Town itself. In 1866 they say: 'Too many of our larger scholars are sent out of town, at great inconvenience and expense, for the purpose of pursuing those branches of study not taught in our schools. We need a higher grade of grammar schools; one at this village (Saugus Centre), open to each scholar in town found qualified, would secure most, if not all, the advantages of a high school.' Again in 1871 it was alluded to as a necessity which Saugus could not much longer afford to do without. At the present time, when it is no longer problematical or merely experimental, but has become a fixed fact by a year of brilliant success, its friends, we trust, have become sufficiently numerous to insure its continued existence."

From the foregoing statements it appears that the starting of a high school had been agitated for ten years previous to its final establishment, and after it had been organized for a year, it was still a question of doubt as to its continued existence.

The school was first organized in 1872 in the old Town Hall, located on the present site of the Roby school building.

The first principal of the high school was Mrs. Frances H. Newhall, who held that position for two years. Mrs. Newhall resigned this position to accept the Principalship of a school in Lynn, where she continued to have the same excellent success that she had in Saugus. The average attendance for the first year was 22. It appears that Miss Calley assisted Mrs. Newhall

during the spring and fall terms of 1874. James B. Atwood was elected principal in the winter term of '74-5, and because of the additional cost the assistant was dispensed with for one term, when Miss Calley was again appointed to the position.

In the fall of 1875 Mr. Atwood resigned, and Mr. F. W. Eveleth was appointed principal, with Miss Calley, assistant. A room in the old Town Hall continued to be used as an assembly room, while the assistant had one of the dressing rooms for her classes.

During this year the Committee bought a piano for the school "Taking upon themselves personally obligations in order to secure one." Also a course of study was arranged this year and the following year another course somewhat more extended than the first year was arranged.

From the report of 1875 we copy the following: "We ought already to have learned that there are such things as culture and refinement, which are the offspring of a more advanced education. We are persuaded that in many cases a full course of high school education will produce a breadth of view and largeness of mind which would otherwise be lacking, and would increase the capacities and means of enjoyment through life. . . . Too often it is the case that scholars who have been deprived too early, either by their own wilfulness or the indifference of their parents, of a more extended education, have regretted their unimproved opportunities and mourned through life the want of that which could not be supplied."

The accommodations of the Old Town Hall were soon outgrown by the high school, and in 1877 it was transferred to the new Town Hall building.

The report of 1878 states that much greater interest was shown by the parents and pupils after the change.

In the report of the following year the committee state that the first year of this school is purely grammar work, thus giving only two years for high school studies, and that in order to carry on the work properly and give an additional year's work a second assistant is necessary.

In the spring of 1879 Mr. Eveleth resigned and Mr. Charles E. Lord took his place for the remainder of the term.

In the fall of 1879 Mr. Charles H. Smart of Providence, R. I., was chosen principal in place of Mr. Lord.

For several years the committee reported an urgent need of better facilities for teaching the sciences and also a lack of reference books. In 1882 the committee recommended an appropriation of one hundred dollars for scientific apparatus.

During this year an entire change was made in teachers, Mr. Gillette succeeding Principal Smart and Miss Butterfield taking the position left vacant by the resignation of Miss Calley. In this year a new course of study was arranged in this, a college preparatory course is suggested in which three years of Latin could be taken but no Greek.

Thus, after the school had been organized ten years, we find two teachers and an average attendance of about thirty-five pupils.

In 1887, the importance of establishing a four years' classical course in the high school was discussed by the School Committee and clearly proved by Mr. Gillette, principal of the high school at that time. He says: "As soon as possible a classical course should be introduced, so that it may not be necessary for those of our boys and girls who wish to obtain a college education to go to other towns for their preparation. But whether such a course is at present practicable or not, we ought, at once, to have four years for our English course."

During the year 1890 a two years' English course was started for pupils who could not afford to remain for a longer period in the high school.

In 1893, after the school had been established twenty years, there were two teachers and an average attendance of about thirty-seven pupils. This shows an increase of fifteen pupils over the average number during the first year of the school's existence, twenty years before, and an increase of two in the last ten years.

In 1894 Mr. Gillette resigned, and Mr. F. E. Emerick was chosen principal of the high school. In the following year

another teacher was added to the corps of teachers. There was a noticeable increase in the number of pupils this year. This was partly due to the increase of the number of pupils in town and partly to the additional facilities offered by having a third teacher. The average attendance for this year was about forty-nine pupils.

In 1896, Mr. N. E. Adams, our present principal, was elected to fill the position left vacant by the resignation of Mr. Emerick. At this time, the two years' English course was dropped, and a regular four years' classical course with a three years' English course was started so that pupils might prepare for college or the scientific schools in our own town. For a few years previous to this students had been allowed to return after completing the three years' course and obtain whatever benefit they could.

But so far as I am able to ascertain the first students prepared to enter college from this school graduated in 1897. In this year (1897) the school was transferred from the new Town Hall building to its present commodious quarters in the Roby School building, where it now occupies all the upper part of the building.

After twenty-eight years the high school has four teachers and an average attendance of about eighty-five pupils for the past year. Thus, in six years, two teachers have been added to the high school, while the average attendance of pupils has been increased forty-eight, or considerably more than doubled during the time.

No history of the Saugus high school would be complete without showing the benefits derived from the so called "Bond Prize Contests."

About the year 1882, Mr. Charles H. Bond of Cliftondale began to give prizes for excellence in speaking as well as to those pupils making the most improvement in scholarship.

At first, each student who was to participate in the contest, prepared his recitation as best he could for the public exhibition. This appeared to Mr. Bond to be hardly fair, as some could employ teachers of elocution to assist them, while others could not afford it. Therefore, for a number of years past, not only

has he given prizes as previously mentioned, but he has employed a trained teacher of elocution to assist them in their preparation with excellent results.

The benefits derived by the speakers are not the only results of these contests. The money obtained from these public exhibitions is used to benefit every pupil in school. It is in the hands of the teachers of the high school to expend for whatever they think best. The pictures that adorn the rooms occupied by the high school pupils were obtained in this way as also were many books of reference found in the school library. A part of our laboratory apparatus has been purchased with money obtained from this source.

During the seventeen years these contests have been held, nearly five hundred dollars have been realized for the benefit of the high school. The pupils and teachers of this school have every reason to be grateful to Mr. Bond for the interest he has always taken in our school and for the generosity he has shown in all his connections with them in making these contests a success.

This report which must be as short as consistent with its purpose in order to make room for the outline courses of study to be appended is brought to a close with a few words in regard to the seeming increase in the number of school studies.

It is sometimes stated that in attempting to bring in so many subjects the essentials are crowded out. Allow me to say that the crowding is not as real as it seems. The great majority of school time is still given to reading, writing, arithmetic, geography, grammar and history. To be sure we have drawing, but to this subject we devote but seventy-five minutes a week. Singing has its place in every system of schools, but it is assigned but a little more than one hour a week of the school program. Nature-study claims a little attention during the spring term and early fall, but much of this work is interwoven with geography and language lessons. At most it claims two or three periods a week for a half year.

The school curriculum is undergoing constant change. The colleges and technical schools are crowding back upon the high schools. The high schools feel the pressure and see no relief

except to push down upon the grammar schools. And the crowding continues until the jostle of the college moves even the primary school.

Let us hope that with every change shall come an approved system and a more harmonious adjustment of all educational forces that childhood may be more efficiently trained and developed.

Respectfully submitted,

C. E. STEVENS,

Superintendent.

Summary

Number of children in Town, September, 1899, from five to fifteen years of age	
Number between five (5) and eight (8)	
Number between seven (7) and fourteen (14)	
Whole number enrolled in all schools	1,207
Number of boys	581
Number of girls	626
Number under five (5)	3
Number over fifteen (15)	102
Number between seven (7) and fourteen (14)	790
Average membership for the year ending June, 1899	1,003.9
Average attendance for the year ending June, 1899	923.9
Per cent. of attendance	92+
Average membership, Fall Term, 1899	1,001.3
Average attendance, Fall Term, 1899	940.6
Per cent. of attendance, Fall Term, 1899	93.9
Number of pupils who have moved into Town	142
Number of pupils who have moved out of Town	135
Number of teachers employed, including specials	30
Increase during the year	0
Number of teachers withdrawn	5
Number of new teachers	5
Number of different schools	24
Increase during the year	0
Number of tardiness	1,500
Number of dismissals	651
Number of visits, not including those of Committee and Superintendent	1,571

Graduating Exercises

OF THE

Class of '99 Saugus High School.

TUESDAY, JUNE 27, 1899.

PROGRAM.

1. MUSIC—"Great Dagan has Subdued Our Foe,"
Arr. from Sampson
CHORUS.
2. PRAYER—
3. MUSIC—"The Daffodils," *King Hall*
LADIES' TRIO.
4. ESSAY—"Out Door Studies with Salutatory,"
HELEN P. KOHLRAUSCH.
5. ESSAY—"The Songs of Burns,"
RUTH M. NICHOLS.
6. ESSAY—"Sensational Journalism,"
L. MAUDE SYLVESTER.
7. MUSIC—"Happy Days," *Strelezki*
IRENE M. WILLARD.
VIOLIN OBLIGATO . . . HARRY STANBON.

8. ESSAY—"Early History of Saugus," . . .
FLORENCE M. COOK.
9. ESSAY—"Athletics,"
TERRENCE J. M'TAGUE.
10. CLASS POEM—"The End of Childhood," . . .
BESSIE B. LEAROYD.
11. MUSIC—"Their Native Land," . . . *Arr. F. Masini*
SEMI-CHORUS.
12. ESSAY—"The Mission of the Flowers," . . .
BLANCHIE M. ATHERTON.
13. CLASS HISTORY—
HATTIE I. STOCKER.
14. ESSAY—"Selecting an Occupation," . . .
MAUDE F. FINDEISEN.
15. MUSIC—"Over the Fields of Clover," . . . *Giebel*
MIXED QUARTETTE.
16. ESSAY—"The Poor Children of the City," . . .
FLORENCE I. WESTWOOD.
17. CLASS PROPHECY—
FLORA L. EDMANDS.
18. ESSAY—"From School Life into Life's School,
with Valedictory,"
ALICE M. HOMAN.
19. AWARD OF DIPLOMAS

Graduates.

Past Graduate.

Ernest Warren Homan.

Classical Course.

Nellie May Austin,
Maude Frederica Findeisen,
Mabel Louise Hawkes,
Helen Porter Kohlrausch,
Lura Maude Sylvester.

Four Years English Course.

Clara Margaret Axtell, Ruth Mildram Nichols,
Alice May Homan, Hattie Isabella Stocker,
Nellie May Wiggin.

Three Years English Course.

Blanche Marshall Atherton,
Herbert Holt Bosworth,
Edna Alma Cleary,
Florence May Cook,
Sadie Abbie Dearborn,
Flora Lillian Edmands,
Bessie Barker Learoyd,
Minnie Etta Lees,
Terrence James McTague,
Carrie George Paul,
Harriet Jane Pitts,
Albert Gideon Porter,
George Herbert Pratt,
Lillian Abbott Rhodes,
Ethel Hawkes Robinson,
Harry Rines Stanbon,
Mabel Louise Stetson,
William Burroughs Sykes,
Florence Isabel Westwood,
Irene May Willard.

Bond Prize Recitations.

THURSDAY EVENING, JUNE 29, 1899, 7.45 O'CLOCK.

PROGRAM.

1. PIANO SOLO—
MRS. KATHARINE FORRISTALL.
2. "Knucklin' Down," *Ella Higginson*
RUTHELLA J. SPRAGUE.
3. "What William Henry Did," *Harbour*
HENRY T. CLAUS.
4. "Connor," *Anon*
ETHEL H. ROBINSON.
5. "Heroism of Landers," *Arthur Pier*
WALDO B. RUSSELL.
6. SOLO—
MISS ELVIRA LEVERONI.
7. "The Debating Society," *Hall*
ERNEST HOMAN.
8. "Little Carl," *Amelia H. Botsford*
FLORA. L. EDMANDS.
9. "The Honor of the Woods," *H. H. Murray*
MAUDE F. FINDEISEN.

10. "The Light from over the Range," . . . *Anon*

ARTHUR GETCHELL.

11. SOLO—

MISS ELVIRA LEVERONI.

12. "Guard No. 10," *Joseph Altsheler*

CLIFFORD BARNES.

13. "Major," *Louise Alcott*

RUTH M. NICHOLS.

AWARD OF PRIZES.

First prize was awarded to ERNEST W. HOMAN.

Second prize to ARTHUR GETCHELL.

Third prize to FLORA L. EDMANDS.

Bond prizes for "improvement" were awarded as follows: two upper classes, LURA MAUDE SYLVESTER; two lower classes, MAY BOYLE.

COURSES OF STUDY
IN
History, Physiology and Hygiene
and Nature Study

FOR THE
PUBLIC SCHOOLS OF SAUGUS, MASS.

1900.

HISTORY.

“The main object of education is not merely the acquisition of information; it is not even the development of the faculties; it is, or ought to be, the awakening of certain desires that will serve to the pupil as a sort of perpetual inspiration through life.”

One of the chief ends to be sought in the study of history is to develop a genuine love for historical reading. This may be accomplished by introducing the study early in school life and continuing progressively through all the grades. Following the story-telling of the primary grades we have interesting parts of our own history read by the pupils. Thus a good foundation is laid for the broader and more independent study of the upper grammar grades.

The pupils' method of study will be largely determined by the teachers' method of assigning lessons and hearing recitations. As a rule, use the topical method, not the question and answer method. Make constant use of pictures, drawings, home-made outline maps, charts, and all available reference books. Use the Public Library constantly. Many excellent books are to be found there.

Make use of a great variety of devices to stimulate interest and hold the attention.

Flag salute for primary grades.—I pledge allegiance to my Flag and the Republic for which it stands—one Nation, indivisible, with liberty and justice for all.

Flag salute for older pupils.—We give our Heads and our Hearts to God and our Country. One Country! One Language! One Flag!

GRADE I.

Selected stories told by the teacher. The material may be taken from fables, poetry, mythology or history. The educational value of stories is increased if accompanied by pictures or sketches. Suggested topics: Stories appropriate for Flag Days, Thanksgiving, Christmas, and others which furnish useful lessons.

GRADE II.

Selected stories and poems read or told by the teachers, especially such as furnish lessons of heroism, patriotism, self control and devotion to duty.

Arbor Day, Decoration Day, Bunker Hill, Columbus, the first Thanksgiving, Miles Standish, Christmas in colonial times, Benj. Franklin, Washington, Lincoln, Paul Revere.

GRADE III.

Continue story telling. The following topics are suggested for use either in reading to the pupils or reading by the pupils:

Indians. Life in tribes, children, homes, furniture, clothing, manners and customs, treatment of the white men.

Capt. John Smith, Pocahontas, Daniel Boone.

Esquimaux. Houses, food, dogs, sledges, boats, Arctic animals, children, social customs, country.

The Pilgrims. The landing,—*Mayflower*, Plymouth Rock, why they left home, their first year in America.

Fulton and the steamboat.

GRADE IV.

Pupils may read from book furnished, but should be encouraged to gather additional facts from other sources. The teacher may read to the pupils. Topics for special consideration :

The Cabots and Drake.
De Soto and the Mississippi.
William Penn and Philadelphia.
The Boston Tea Party.
Warren at Bunker Hill.
Washington at Valley Forge.
Eli Whitney and the Cotton-gin.
The Railroad and the Telegraph.
The early history of Saugus.

GRADE V.

Pupils will read the prescribed book. Develop clear ideas by questions and conversation. Have both oral and written exercises.

Topics for special study.

Champlain and La Salle. Early settlers of New York and Virginia. How England treated the Colonies. Washington in the French War. Braddock's defeat. Wolfe at Qubec. Patrick Henry. Benjamin Franklin. La Fayette. Charles Goodyear. Colonial times—Houses, furniture, food, dress, travel, etc. Paul Revere—Concord and Lexington. Territorial growth—Louisiana, Oregon, Texas, Alaska.

GRADE VI.

Read the prescribed book and dwell especially on the following topics :

Geography as understood 400 years ago. Early settlements in Mass., New York, Florida, etc. Salem Witchcraft. Whitney and the cotton-gin. Fulton and the steamboat. The Indians and the Colonists. Causes of the Revolution. Narrative of the War. Morse and the telegraph. John Brown's Raid. Abraham Lincoln. War of the Rebellion. The Slavery Question.

The *Monitor* and the *Merrimac*. Garfield—his life and death. Explosion of the *Maine*. Battle of Manila. Annexation of Hawaii.

GRADE VII.

Begin formal study and recitations. Emphasize the following topics :

Early Settlers—Indians, Spanish explorers of America; Columbus, De Leon, De Soto, French explorers; Cartier, Venazni—The Jesuits—English explorers; the Cabots, Henry Hudson—Dutch explorers.

Colonial Development—Virginia, grants of territory, character of the colonists, navigation acts, negro slavery, Bacon's rebellion.

Massachusetts Puritans and pilgrims—Plymouth colony, social organization, Massachusetts Bay colony, John Endicott, settlement of Boston, John Winthrop, growth of the colony, the town meeting.

Connecticut emigration from Massachusetts colonies united, distinctive features of other colonies.

Intercolonial Wars—Object of these wars, condition of colonies at their close, forms of government, manners and customs.

Make frequent use of historical poems as :

“The Old Thirteen”—*Brooks*.

“Nathan Hale”—*Finch*.

“Norembega”—*Whittier*.

“Pocahontas”—*Hemans*.

“The Landing of the Pilgrims”—*Mrs. Hemans*.

“Evangeline”—*Longfellow*, and many others.

The Revolutionary Period—Causes of the war, remote, direct. Continental Congress. A few leading battles. Results of the war. Adoption of the Constitution; learn the preamble. Study with care the lives of Joseph Warren, Israel Putnam, Nathan Hale, Benedict Arnold, Major Andre, Benjamin Franklin, LaFayette, Kosciuszko, Robert Morris and Rochambeau. Use a few poems as “Paul Revere's Ride,” “Lexington” by Holmes, “Under the Old Elm” by Lowell, and “Yorktown” by Whittier.

Growth of the Union—Have pupils draw a set of maps showing the several acquisitions of territory.

Topics for special discussion :

How were the colonists supplied with the necessities of life during the war, especially with manufactured goods?

How did Washington obtain his military supplies?

What became of the Loyalists at the close of the war?

History of Saugus.—Early settlements. Growth in population. Its industries, public buildings and ancient landmarks. Any interesting topics.

Make constant use of outline maps. Do not neglect the geographical side of history.

GRADE VIII.

Study the period from the adoption of the Constitution to the present time. Dwell especially upon social, economic and industrial progress. Lead the pupils to thoroughly understand our *growth and development as a nation*.

The outline for this period is given but a few topics for special discussion are added.

1. Products of American inventive genius since the treaty of Paris.

2. The development and prosperity of the South since the war.

3. Our Indian policy. Reservations, schools, land allotment, Hampton Institute.

4. The land policy of the United States. Homestead laws, railroad lands, canal lands, national parks and reservations.

5. Immigration. Number, nationalities, location of immigrants, exclusion of contract labor, dependent and pauper classes.

6. Social conditions of the American people. Capital and labor, progress of manufactures, pauperism, crime, education, manners and social customs.

7. Consider these topics of town and State government: (a) What officers chosen? (b) By whom chosen? (c) When and how chosen? (d) For what chosen?

Comparison of city and town government.

GRADE IX.

The work of this year may be briefly stated thus :

1. English History.
2. Civil Government.
3. Important current events.

No topical outline is given but it is expected that such topics as these will be considered :

1. The different forms of colonial government. How like the English system?
 2. The Queen and the President as rulers. Their powers and duties compared.
 3. Congress as compared with Parliament.
 4. Comparison of the United States Constitution with the Constitution of England.
 5. Relations between England and the United States from the Revolutionary war to the treaty of Ghent.
-

PHYSIOLOGY AND HYGIENE.

By the law of the Commonwealth (Acts of 1885) Physiology and Hygiene, including special instruction as to the effects of alcoholic drinks, is a required study in all public schools.

In accordance with the law the following outline is prepared. Our aim is—1. To furnish pupils with simple and wise rules for the care of their bodies. 2. To give them an opportunity to obtain a fair knowledge of the human organism, and 3. To strengthen the power of resisting evil of all kinds.

Exercise much common sense in teaching the effects of alcoholic drinks, tobacco and cigarettes. Teach only the generally accepted truth and that judiciously.

Use diagrams constantly and when possible, present the subject objectively. Plan each lesson carefully and do not allow yourself to be drawn aside by irrelevant questions.

In the primary grades dwell upon the positive sides of the drink evil, *i. e.*, the advantages of total abstinence, but in the older classes, the moral, social and physical effects of the "great evil" should be taught. Show the close conection between the habit of drinking and vice of other kinds.

Lessons are to be given from November to March, once a week in primary grades, and twice a week in all others.

GRADE I.

General lessons on the care, comfort and cleanliness of the hands, face, hair and body.

Each pupil should know his own height and weight and watch his growth. He should be able to touch and name the different parts of the body: head, neck, body, arms, hands, legs, feet, etc.

GRADE II.

Teach the use of special senses.

Eyes,—situation and importance; protected by brow, lid, lash, tears; white, iris, pupil; change in size of pupil; proper care of eyes.

Ears,—situation and importance; outer, middle, inner; uses of outer ear; care and cleanliness; elementary ideas of sound.

Smell, touch and taste,—location and uses of these senses.

(The teacher should find out defects in the children's eyesight or hearing and act accordingly.)

GRADE III.

"The House we Live in."

The Framework,—Skull, spine, ribs, shoulder blade, collar bone; cartilages and ligaments, their nature and use.

Joints,—Muscles,—appearance, exercise, rest. Tendons,—sprains, what to do.

The Skin,—uses and care.

Clothing,—amount and kind. Protection against illness.

Lessons and stories on good living and good manners.

GRADE IV.

Teach briefly the use and care of the brain, heart, lungs, stomach and kidneys.

Bones,—number, form, size, characteristic, uses, composition, growth and repair, influence of food.

Skull,—of what composed, use.

Face,—different parts, variation in different animals and races of men.

Spine,—structure; general form and reasons for, purposes; general use; correct position; causes and results of curvature.

Ribs,—number, classes, forms and why. Uses in respiration.

Name and location of bones in upper and lower limbs.

Lessons on the importance of pure air, proper sanitary arrangements, good food and drink and proper exercise. Uses and abuses of alcohol. Danger of cigarette smoking.

GRADE V.

Muscles,—Voluntary; appearance, color, shape; blood supply; nerve supply. Tendon,—of what composed, inelasticity and strength, attachment, use. How a muscle acts,—excited through nerve, contraction of fibres, motion through tendon, bone as a lever, changes in muscle during action.

Relation of use to vigor of organs.

Exercise,—need of, amount and kind, benefits of, evils of over-exercise, evils of insufficient exercise. Fatigue, causes.

Involuntary muscles,—appearance, arrangement, importance, purpose. How different from voluntary. Situation and use of organs controlled wholly or in part by involuntary muscles and reason for such control. (Heart, stomach, etc.)

Necessity of forming correct, muscular habits.

Effects of alcohol on muscular system.

GRADE VI.

Relation of work and waste. Need of repair.

Food,—definition, sources, kinds. Uses of food, amount and kinds required. Effects of age, climate, season, and our habits

on food required. Cooking, how and why. Purity of food, water impurities, dangerous food adulterations.

Digestion,—necessity, general nature of the process.

The Teeth,—number, kind, uses and care.

Hygiene,—thorough mastication, regularity of meals, moderation in eating and drinking, eating at bedtime and between meals, action of condiments, coffee, tea, alcohol, effects of fatigue and excitement on digestion, exercise immediately after meals.

GRADE VII.

The Circulation,—Blood, color, kinds, amount, temperature, uses, coagulation, composition. Blood vessels,—kinds, position, kind of blood in each, hemorrhage; how to stop it. Proper treatment of fainting, also various kinds of cuts, bruises, bleeding and other wounds. The heart,—position, form, size, structure, use, action, pulse, course of blood through the heart.

Hygiene. Effects of irritants, colds, alcohol, exercise, and over-exercise on circulation. The heart and mental excitement. Effects of pressure of improper clothing on veins. Effects of poor food and impure air on blood.

GRADE VIII.

Respiration. Oxygen, carbonic acid, inspiration, expiration. Study with care nose, pharynx, larynx, trachea, lungs. Loss and gain of the blood by breathing. Chest organs and use in respiration. Comparison of inspired and expired air.

Hygiene. The need of pure air, ventilation. Effect of living in poorly ventilated rooms, especially on those predisposed to disease. City air and country air, impurity in each. Sea and mountain air. Mouth breathing and effects. How catarrh can be prevented; relation of skin and mucous membranes. Contagion and disinfectants; the removal and proper disposal of waste matter in and around houses, in the streets of cities and towns. Board of Health.

Kidneys,—number, position, use.

Skin,—general importance, structure, use. Perspiration, importance, use.

Function of lungs, skin and kidneys compared.

Baths,—kinds, effects of, time for, necessity of, proper use of soap.

Clothing,—kinds, material, weight and looseness, proper support of clothing. Consider clothing with reference to heat conduction, absorption of moisture and heat.

GRADE IX.

General review of the entire subject with special study of :

The Nervous System,—Elements which compose it, nerve cells, nerve fibres and centers. Cerebro-spinal,—brain, spinal cord, sensory and motor nerves. Sympathetic system,—centers, nerves, functions.

Hygiene. Judicious use demanded, evils of over-excitement, change, rest, sleep, stimulants, muscular exercise.

Also a thorough study of the Special Senses.

NATURE STUDY.

1. Nature Study means the study of the plant, animal and mineral worlds and the phenomena of nature. But this boundless field becomes greatly reduced in size when we consider that all work must be adapted to the age, interest and comprehension of the pupils. With this limitation there yet remains an abundance of material for study in all grades, the chief problem being to select and adapt.

2. The following outline is intended to be suggestive rather than proscription, each teacher being given much freedom in arranging the lessons of her own school. She will naturally use material near at hand and will give the best lessons along lines in which her greatest interest lies, care being taken not to trespass upon the ground assigned to higher grades. All lessons should be delightfully informal.

3. Teachers should plan for and encourage in every possible way out-of-door study, for all lessons are to be based upon the observations of the pupils.

4. Teachers of primary grades will find their lessons the most interesting and effective when they are short and given to small groups of children.

5. Text books are not to be used but each school may properly use reference books *after* observations are made.

6. In collecting material for study, pupils should be cautioned not to needlessly gather any flowers, especially the roots and seeds of uncommon varieties.

7. Oral and written language-exercises and illustrative drawings should accompany the work in all grades, based always on what the pupil has seen.

8. Teachers are asked to maintain the Bands of Mercy organization and to seek to inculcate the noble principles of the order. One lesson a month should be devoted to this subject.

9. In answer to the question, "What is nature study?" Prof. Bailey of Cornell University says:

"It is seeing the things which one looks at, and the drawing of proper conclusions from what one sees. Nature-study is not the study of a science, as of botany, entomology, geology and the like. That is, it takes the things at hand and endeavors to understand them, without reference to the systematic order of relationships of the objects. It is wholly informal and unsystematic as the objects are which one sees. It is entirely divorced from definitions, or from explanations in books. It is therefore supremely natural. It simply trains the eye and the mind to see and to comprehend the common things of life, and the result is not directly the acquirement of science, but the establishing of a living sympathy with everything that is."

GRADE I.

1. Conversation lessons on pets, common and domestic animals, birds easily seen, the weather, and other interesting topics.

2. Gather wild flowers and keep them growing in the school-room. Learn to recognize a few common varieties.

3. Start large and typical seeds, and watch their growth, observing changes.

4. Gather twigs with large buds, place in water and watch the development; observe character and arrangement of buds and leaves.

5. Some observations of birds as seen in spring and fall. A few specimens recognized.

GRADE II.

1. Gather wild flowers and bring to school. Learn to recognize ten new flowers. Observe the parts of a plant, their color, size, shape and use. Dwell upon the beauty, color, time of blossoming and other interesting facts concerning flowers.

2. Gather twigs with leaves attached, observing size, shape, position and kind of leaves. Study the leafless twigs with special reference to buds, bark, scars, markings. Watch the unfolding of buds in the school-room.

3. Watch the birds as they come in spring. Recognize them and write a list of their names, with single characteristics.

4. Study the horse, cow and sheep. Consider characteristics and habits.

5. Note a few familiar trees, their shape, place of growth and use to man and animals.

6. Collect and recognize a few common minerals, as quartz, mica, marble, iron and lead. Note single characteristics, using such words as hard, soft, thin, smooth, rough, sharp, faces, shining, heavy, light.

GRADE III.

1. Continue the work of topic one, grade two, extending the range of observation. Recognize and name fifteen new flowers.

2. History of plant life from seed to seed. Plant several kinds of seeds for quiet observation.

3. Buds,—kinds (leaf and flower), structure, folding of the leaves and flowers in the bud, protection, development of the branch.

4. Leaves,—forms, uses, veining, falling of leaves, which earliest to fall.

Record of different trees. Compare with time of appearing in spring.

5. Seeds,—examine a few seeds as dandelion, elm, bladderwort, burdock, and sticktight as to means of dispersion. How do plants travel?

6. Study the dog, cat, etc., as to habits and the adaptability of the animal to his mode of motion, eating and care of young.

7. Extend the work of topic six, grade two. Pebbles, puddingstone; sand, sandstone; clay, slate.

GRADES I, II AND III.

In each grade notice changing length of day and night. Changing temperature and results. Simple weather record. Conspicuous changes in the plant and animal world as the seasons change. Different habits and occupations of man in the course of a year.

Such attention may be given to collection of caterpillars and their metamorphoses, to the study of tadpoles, fishes, squirrels and other topics as the teachers may determine.

GRADE IV.

1. Plant as a whole, its growth, appearance summer and winter, locality. (a) Roots; study and compare different kinds. (b) Stems; growth, directions, kinds, habits. (c) Leaves, position, veining, kinds, uses.

Flowers; study the parts using scientific names. Learn to recognize many common varieties and to write orderly descriptions. Selections for careful study may be made from this list: Blood-root, bluets, dog-tooth violet, jack-in-the-pulpit, violet, clover, buttercup, shepherd's purse, arbutus, daisy, dandelion, pond lily, morning-glory, aster, gentian, golden-rod, butter-and-eggs.

Fruits; study a few kinds as cones, acorns, nuts, corn, apples. Likenesses and differences. Uses to man and animals.

2. Trees; learn to recognize and name a few common kinds, observing especially the general shape, arrangement of branches, kind of trunk, blossom and fruit.

Spring and autumn changes. The following species are suggested: Oak, maple, hickory, willow, horse-chestnut, elm, cherry, apple, pine, spruce.

3. Birds. Topics for special study: Food, the kind and quantity; habits of moving, building; value to man. Encourage kindness in every possible way. Do not allow or encourage the collection of nests or eggs. Learn to name and recognize by sight and sound ten common species. Life history of birds from egg to egg.

Select poems and reading lessons on bird habits.

4. Natural Phenomena. Consider the relation existing between direction of wind, temperature, and clear or stormy weather. Kinds of storms as to wind direction. Observe weather changes and keep a simple record.

GRADE V.

1. Twigs and Buds.—Study and compare twigs of lilac, apple, cherry, balm-of-gilead, maple, hickory, willow, ash, shad-bush, spice-bush, alder, maple-leaved yiburnum. Observe especially the age, amount of yearly growth, different markings and scars. The kind, form, position, arrangement and structure of buds. Bud scales—Number, thickness, coating, use. Observe carefully the time of opening of different buds on the same tree, buds of different trees, and search for the reason. Observe how the position, arrangement and development of the buds effect the shape of the tree.

(Teach all technical terms which you need to use; terminal, axillary, alternate, opposite; excurrent, deliquescent, etc.)

2. Germination—Life history of corn, pea, bean, morning-glory. Teach cotyledons, caulicle, plumule, conditions of germination and growth.

3. Review and extend the work of topic one of the preceding grade. Include the use and meaning of the terms, herbs,

shrubs, trees; annual, biennial, perennial. Continue the study of flowers—especially of the Crowfoot and Lily families.

4. Animals. Make a list of all animals known to the pupils. Arrange in two groups, those with, and those without a backbone. Also arrange in groups with reference to habits of moving, with reference to covering, with reference to kind of food. Study carefully one animal of each class with special consideration of adaptation of parts to known habits.

5. Minerals. Study one mineral as quartz, noting and recording distinguishing qualities. Think out reasons for uses. Compare with other minerals as feldspar, mica, flint, calcite, as to hardness, fracture, color, lustre, structure, transparency, and record observations. Collect specimens. Building stones; different kinds and relative value. Why?

GRADE VI.

1. Plants. As a whole; place of growth (wet, dry, open or shady), from habits of growth, value to man. Seek for reasons of peculiar structure. Emphasize function.

Parts. Root; especially the size and shape with reference to the work it has to do. Stem; any peculiarities of color, shape or markings. Its adaptability to its environment and to the work required of it. Leaves; apex, base, general form, venation, vernation, work done by leaves. Use and value of petiole.

Flowers; sepals, petals, stamens, pistils. Use of each part and its relation to other parts. Time of appearing. Why?

Study of pollen, method of escaping from anther, ways of getting to pistil.

Uses to plants of color, odor, insects, nectar.

For study the following list is suggested: Marsh, marigold, hyacinth, scarlet geranium, jewel weed, morning-glory, ladies' slipper, bellwort, rose, shad bush, iris, cinquefoil, trillium, nasturtium, dandelion, cherry, apple, daisy, dogsbane, gerardia, lobelia, fireweed, tick-tre-foil, harebell, cardinal flower.

Leading characteristics of the Crowfoot, Lily and Rose Families.

2. Seeds. Dispersion. Make a collection of seeds to illustrate the principal ways of dispersion,—Water, wind, plants that shoot off their seeds or spores, birds and other animals, man.

Why do plants travel? The value of wide dispersal. Seeds in winter; how protected? Which plants are most widely distributed? Why? The effect of mountains, forests, climate, rivers and other plants upon plant distribution.

3. Insects. Some observation of several typical species, as bees, crickets, grasshoppers and butterflies. How do they live, move, protect themselves? Watch transformation. Make a list of known insects according to place. Where seen—in the air, about flowers, on trees, on vines, in grass, in houses. Which are useful? injurious?

4. Natural Phenomena. Observe the gradual change in the length of day. What changes are thus produced?

Prevailing winds in different times of year. How different in Illinois, Colorado, Arizona, California?

Record the amount of rain and snow. Is it the same for different months? The relation between wind direction and rainfall.

GRADE VII.

1. Review and extend the work of topic one, grade six, selecting unfamiliar plants. Special attention to general classification and family characteristics.

2. Grasses and Grains. Gather different kinds of grasses and grains from high and low land, from field, garden and swamp. Study structure, parts, striking characteristics, habits, use. What if all grasses grew from the seed every spring? Which of our foods come directly and indirectly from grasses? In what way are grains associated with alcoholic liquors? Make an analytic study of a few species.

3. Trees. Make a special study of apple, lilac, sassafras, birches, poplars, maples, walnuts, hickories. Emphasize distinguishing characteristics of the species, and the family or group. Annual and life history of trees.

4. Buds—Careful observation and study of the commonest species.

Food—Kind, amount, manner of eating.

Nest—Location, material, time of building, how held in place, devices for concealment, care of young.

Flying—Slow, rapid, easy, long or short distances. Observe form, size of body, wings and tail of the bird.

Song characteristics—Why do birds sing? When most?

Habits on foot—Walk, hop, run, climb. Why cannot all birds climb.

Covering—Color, markings, kinds of feathers.

Migration—Time of leaving of animal. Make a record. Why do birds migrate?

Enemies—Most common, means of escape from.

Consider the adaptability of birds to their habits and location.

Coal series—Peat, bituminous coal, anthracite coal, plumbago.

Metals—Lead, iron, zinc, mercury, gold and silver, their distinguishing characteristics and uses.

GRADE VIII.

1. Trees. The Life of a Tree,—parts, food, composition of wood, breathing, transpiration, growth, structure, annual rings, scars.

Forest trees,—requirements as to light, heat and moisture, rate of growth, reproductive power, succession of forest trees, the life of a forest, enemies, value to animals and man, their preservation—why so desirable.

Street trees,—their care and culture private and public, suitable species for this purpose, a benefit or injury to property, diseases, injuries, how protected, town by-laws, tree warden, State law in relation to preservation of trees.

For special study,—cornels, viburnums, oak family, chestnut, juneberry, spicebush, and the Coniferae.

2. Erosion and Sedimentation. Action of brook, river, pond, lake, ocean. Effect upon the roadside, river, valley, and borders of large bodies of water. General effect upon land surfaces.

Find all the good examples near you of building or wearing away. Study with reference to past history. Is there a marsh

near you? What was its probable condition a hundred, two hundred years ago? Are forces now acting more slowly or more rapidly than in former centuries? Why? What effect has vegetation?

Do you find well-rounded pebbles? Account for remoteness from the water.

3. Physics. Action of cohesion and adhesion, properties of matter as hardness, brittleness, elasticity, etc., applications. Pressure of water and air, heat and its effects.

GRADE IX.

1. Trees and shrubs. Special study of alders, beech, ash, elms, elder, sweet fern, bayberry, moosewood, willows, witch hazel, fruit trees, and others not previously studied.

2. Plants and Flowers. (a) Study of a few unfamiliar flowers. (b) Special study of Composite and Orchis Families.

3. Flowerless plants. In a general way, ferns, mosses, lichens, fungi, mushrooms, club-mosses.

A short study of two or three kinds of ferns.

Study briefly the ground-pine as one of the club-mosses.

4.—The Planets. As morning and evening stars. Follow their changing position through the fall and winter. Why does Mercury change from morning to evening star more frequently than Venus? Why is it seen as a morning or evening star for so short a time? Draw diagrams to show relative position of earth, sun and Mercury, when the latter is a morning star. Endeavor to find out by studying the rate of motion of each planet how often it will be either a morning or evening star during the year.

The Star—Star groups may be observed and named and diagrams of the same drawn.

5. Physics—Lever, wheel and axle, pulley inclined plane, screw, wedge, pendulum.
